

Our school is full of energy, laughter and excitement. As a Church school, our ethos is underpinned by Christian values.

Both challenge and high expectation are at the forefront of everything we do, not only regarding personal achievement but also the whole child.

Special emphasis is placed upon nurturing and developing each and every child who comes to St. Michael's School.

We offer an enriched, varied and engaging curriculum, the theme of which weaves through all areas of our learning community. This includes ensuring that our classrooms provide learners with colourful and stimulating learning environments.

Within St. Michael's School, we have a strong team of teachers and teaching assistants who bring and share their expertise in order to ensure all children are equipped to take the next step in their independent learning journey.

One of our greatest strengths, something of which we are very proud, is the quality of co-operation that exists between everyone involved in school life.

We recognise that it is due to the participation and engagement of the children, parents, teachers, the Church and wider community that make St. Michael's School the very special place it is today.
